

AS 59 IK D HD

Wet/dry vacuum cleaner with a new metal trolley (4 tilting wheels, Ø 100 mm) to ensure the maximum transportability on every kind of surface. Equipped with two motors that can be controlled separately. A drain hose makes emptying the tank easy. The standard accessories have been developed exclusively for the user: a crevice tool made of a special rubber, which doesn't leave marks (developed to avoid any damage caused by an impact or by stepping on it), a rubber curved tool with a brush and a 4 meters long flexible hose (to easily reach any area without the need to move the vacuum cleaner), an antistatic kit and a washable nonwoven fabric filter.

Nonwoven fabric filter

Special rubber curved tool with brush

Motor switches

Cage bag support with floater

Special rubber crevice tool + 4 m hose

New metal trolley

Antistatic device
