

AS 60 IK D HD

WET/DRY VACUUM CLEANERS

Outstanding performances are shown by this wet/dry vacuum cleaner thanks to its three motors, with the possibility to use a single motor, two or even three motors at the same time. The new metal trolley (4 pivoting wheels, Ø 100 mm) allow the maximum transportability on every kind of surface and the drain hose system makes emptying the tank easy. In standard equipment, along with a washable nonwoven fabric filter (polyester), an antistatic kit is included. The standard accessories have been developed exclusively for the user: a crevice tool made of a special rubber, which doesn't leave marks (developed to avoid any damage caused by an impact or by stepping on it), a rubber curved tool with a brush and a 4 meters long flexible hose to easily reach any area without the need to move the vacuum cleaner.

Nonwoven fabric filter

Special rubber curved tool with brush

Motor switches

Cage bag support with floater

Special rubber crevice tool + 4 m hose

New metal trolley

Antistatic device

PRODUCT IDENTIFICATION
